A Note about Our Coffee Offering

The Sandwich Club Ltd. has developed its own exclusive coffee variety made of a blend of Columbian and Brazilian beans which have been medium dark roasted. This blend has proved to be extremely popular and led to numerous requests for us to sell the beans but we confine the sale of the blend to our outlets.

All of our coffee is freshly made to order. This means that the beans are always freshly ground. Freshness and maximum quality of coffee taste is therefore ensured.

We do not serve filter coffee or any other pre-made coffee kept in a warmer. Because the Sandwich Club is not tied to any one coffee supplier we have the flexibility to source new and better coffee varieties from a host of sources and intend to maintain the search for improved coffee offerings.
